Explain some of the new electronic gadgets or equipment that people who enjoy music are currently interested in. What hot topics or trends are they discussing?

Describe some of the new products that they are excited about and why.

1. 좋아하는 음악 장르, 좋아하는 가수

I personally like listening to all kinds of music, depending on the situation.

Sometimes, I feel like listening to hip-hop because it helps me unwind. Listening to fast songs helps me get in the zone when I'm jogging or working out.

On the other hand, there are times when I feel like listening to slow songs. Slow songs help me relax after a long day at work. I especially like love songs because they remind me of my first love.

One of my favorite musicians is a Korean boy group called BTS. They are one of the most famous musicians in the world these days. They are not only great singers but also great dancers. They have fans all across the world. Every time they release a new album, it becomes a big hit. Well, that's it. I hope more people discover their music.

2. 음악을 언제 어디서 듣는지, 음악 관련 기기

I used to listen to music on my MP3 player a few years back.

But now, things have changed a lot. Because I have my cell phone on me all the time,

I listen to music with my phone. I don't have any particular places where

I listen to music. I listen to music whenever I want to and wherever I am. However,

there are some places where I listen to music. I listen to music at coffee shops when

I have to concentrate on something. I also listen to music on the move. It usually

takes about 20 minutes to get to work, so I usually put on some music on the subway

or the bus. Overall, I listen to music wherever I am and whenever I want to because

I always have my phone on me.

3. 콘서트장에 갔던 경험

A couple of years ago, I remember going to a concert at the Olympic Stadium. I went there with one of my friends. Since this was my first time going to a concert, I was very curious and excited. It was very special because the singer is my favorite artist of all time and I had never seen him perform in person. The concert began with the singer's powerful dance. I moved to the music while singing the lyrics. All the performers on the stage that day were very impressive. That's about it. Once again, I still think it was definitely the best concert I've ever been to.
