1. 집 휴가 때 누구랑 무엇을 하는지

Nothing beats staying at home during vacations, especially after busy days with heavy workloads. So, I personally prefer to stay at home and spend time with the people I love.

I enjoy spending time with my friends when I get some time off. When I meet up with my friends, we usually go to one of our hangouts and have lunch or dinner together. We talk about what we've been doing. We also talk about special events that have happened and life in general.

I also like eating out with my family members. They are always on my side, so I enjoy talking to them. Well, that's about it. Overall, I usually have a great time with my friends and family during my vacation.

2. 지난 휴가

I remember spending a vacation at home a few months ago. I was very tired from work, so I decided to stay at home and recharge my battery. The next day, I met up with my friends that I don't get to see that much. We went to one of our hangouts and grabbed a beer. We also went for a second round and drank more beers. I was a bit tipsy but it's always fun to spend time with the people I love. We also talked about special events that have happened and life in general. Well, that's it. That's all I can think of at the moment. That's what I did on my last vacation.

3. 기억에 남는 휴가

I remember when I had food poisoning at home a few years ago. There was something wrong with the food I had that day. I think it was because of some improperly cooked meat that I had in the morning. I had stomach pains, vomiting, and even a high fever. So, I had to go see a doctor immediately. I had to take some medicine and get some rest. The worst thing was that I was supposed to meet up with my old friend from school. However, I had to cancel our plan and stay at home. I felt very bad because I knew that I wouldn't be able to see her for a couple of years. Well, I still regret the fact that I couldn't see my friend that day. That's all I remember for now. It was definitely the worst vacation I have ever had.
