1. 좋아하는 영화 장르

There are various types of movies I like to watch. In fact, I don't have a particular type of movies I watch. I enjoy watching all kinds of movies depending on the situation. Sometimes, I like to watch romantic comedies because they remind me of someone from the past. However, there are times when I feel like watching action movies. The action scenes help me relieve my stress or help me kill time by watching them. For example, a recent action movie I enjoyed was _____. I could concentrate easily on the movie because it had a simple storyline (or exciting action scenes). Plus, I sometimes just watch whatever is popular. I just go to the movies to see whatever is popular at that point of time. I guess that's it.

All in all, I like watching all kinds of movies depending on the situation.

2. 자주 가는 영화관

My favorite movie theater that I typically go to is a multiplex theater called CCB. Since my workplace is just across the street, it is convenient for me to watch a movie after work. It takes about 10 minutes from where I work. The overall mood of the theater is always crowded with many people. There are various places to eat and shop such as restaurants, coffee shops and even stores. Also, there is the box office and many kiosks where people line up.

That's it. That's all I can think of at the moment. Overall, these are some of the reasons why I like to go to the movie theater.
