Movies 2 : 영화 2

Adv 과거/현재 영화의 변화

Could you compare the movies made today to the movies you saw while you were growing up?

How have movies changed over the years? What are some similarities and differences?

Adv 최근 뉴스에 언급된 영화 배우/이슈

Tell me about one of the actors who was in the news recently because of some issue.

What was the issue about? How did the news affect your impression of that actor?

4. 과거/현재 영화작품들의 변화

Korean movies have changed a lot over the years. The biggest change is the use of computer graphics. In the past, the computer graphic technology was not developed that much. Because of that, the viewers could easily notice the use of computer graphics, and it was somewhat awkward and funny. However, these days, there have been massive improvements in the movie industry as the computer graphic technology has developed. For example, ghosts and other imaginary creatures look so real.

Well, once again, I would say that Korean movies have become so much better than the past.

5. 최근 뉴스에 언급된 영화 배우/이슈

Well, I can't think of anything right now, but the only thing I remember is about two Korean famous actors dating after co-starring. _____ and _____ confirmed that they have been dating for 8 months. They are definitely one of the leading actors and actresses with many fans all around the world. I was shocked when I first heard the news, but soon after, I thought they would be a nice couple.

According to the news, the two became intimate friends as co-stars and developed such intimacy into a romantic relationship after the drama. Their agencies also confirmed that the pair are in a relationship. (And the actress wrote how grateful she is to meet the guy on her Instagram.)

There is always something interesting in the media, but this is the only news I can think of at the moment.
